

CONSTRUCTION TECHNOLOGY – GREEN BUILDING
Certificate

Minimum Credits: 32.0
Contact Hours: 32.0

INTRODUCTION: This certificate program familiarizes students with construction industry tools and processes, focusing on green building techniques. Graduates meet the industry’s need for advanced efficiency training, and will have received specific training in green systems, practices, and methods, as well as in the ability to communicate and grade the benefits of such. It is the only on-line program offered in Michigan, designed to assist remotely located students in obtaining or advancing their residential and/or commercial green building career.
