

CREDIT WHEN IT'S DUE

Alpena Community College

EARN YOUR ASSOCIATE DEGREE FROM ACC EVEN AFTER YOU TRANSFER TO A UNIVERSITY

When students transfer from Alpena Community College to a university, they can still obtain an associate degree even after they've begun their studies at a new college. ACC has reverse transfer agreements in place with Lake Superior State University, Ferris State University, Grand Valley State University, and Saginaw Valley State University, so our students can earn an associate degree with the help of credits earned at their university. It's one more way ACC looks out for our students and makes sure they receive credit when credit's due.
