AUGUST 12-15, 2019

UAS/DRONE PILOT EXAM PREP SEMINAR

About the Seminar
ACC is thrilled to offer a non-credit UAS/Drone Pilot FAA Exam Prep course. The class starts with 24-hours of intensive classroom training that will prepare you to take the FAA Part 107 Drone Pilot exam, covering UAS regulations, the National Airspace System, weather, loading, performance, and operations. The final day will consist of operational and flight training utilizing the DJI Phantom platforms to develop piloting skills, culminating in team challenges. The cost of the course is not inclusive of the fee to take the FAA exam, which is approximately $150.

4-Day Training

Course Fee $650 Per Student (minimum 10 students)

Fee covers: 24 hours classroom instruction; 8 hours flight instruction; Breakfast & Lunch; Textbooks; and Use of ACC's Drones

Optional on-campus housing available. Cost does not include the FAA Exam
